“ Ed was a very good friend of mine back in the 1980s. He was always kind and encouraging to me and had that great sense of humor. I remember seeing him in a play at Delta College where we were both attending and I graduated from nursing school. He was so positive and willing to try new things. I lost touch with him but I have never forgotten the impact his friendship had upon me. Recently I thought I would try to find him so that I could rekindle our friendship and to see what he had been up to all these years I was so sad here that he passed away and that I never got a chance to speak to him again.

If any of the family members read this note please know how much I loved him as a great friend and that I will never forget him. I would like to converse with any family members willing to speak to me about his life if you get this message.

Thank you,
