

Mr. Robert Harrington

July 16, 1964 - June 16, 2016

Countless lives were touched by Robert Harrington. People will say he taught them to ride a dirt bike, to ski, to wake board, to surf, to fish, and how to fix anything mechanical. Countless kids will remember his Northstar ski team coaching. He had a few more bumps and bruises than most of us, but he was the guy who knew how to have fun. On June 16, 2016, Robert passed away doing what he loved, enjoying life to the fullest.

His love of the outdoors began as a child in Plymouth, Massachusetts, where Robert and his brothers rode dirt bikes in the forest, picked wild blueberries, and ice skated on frozen cranberry bogs. His teen years were spent in Riverside, California, where he continued to develop his extreme sports abilities, including being ranked among the highest competitors in the beginning years of BMX racing. Truckee reminded him of Plymouth, and he moved his family up 22 years ago, hoping that his children would have a similar childhood experience.

He is survived by a loving family including his wife, two sons, mother, sister, two brothers, and a large extended family, who must all learn how to live life without Robert's larger-than-life presence. Our lives will be forever changed for sharing in his.

Tribute Wall

TP

“ *I remember the countless hours working with Robert at Northstar. Always upbeat and quick with a smile. He was a pleasure to work with. My condolences to all the people who knew and loved him.*
